Columns

Title column

Columns - screenshot

A picture on the right side with a pictures title on top of the image and a title text and subtitle text on the left side, or vice versa

Setup

Background theme - Choose between a dark or light background

100% width - If checked, the column will be full screen Small vertical margin - Minimize top and bottom margins and use less space on the page Show block - When to show the title (see more info here)

Item list - setup, here a 'banner column' table block. In this example, first the title column (H), then followed by the banner column (H2)

Column title - Here a title for the 'column' can be defined, this title can be shown or hidden. Background as well as title color can be defined. Title - The title of the title column, in this example 'Title column'

Sub title - The sub title of the title column, not used in this example

Style - Choose between 'Large title and small sub title' and 'Small title and large sub title'

Title color- choose between 10 different colors

Sub title color- choose between 10 different colors

Link - Where a link can be defined, in this example 'Read more' is the link leading to the internal page 'How to become a business partner'. This link can also be an external webpage

Column preferences - Here it is possible to choose between 4 different sizes of the column to define how big the column should be. Also the border thickness can be defined in pixels, if set to 0, there will be no border. Border and background color can be defined, in the above example the border color is red, the border thickness is 4 and the background is dark grey

The second item list, the 'Banner column' is now inserted

Column title - Here a title for the 'column' can be defined, this title can be shown or hidden. Background as well as title color can be defined. Title - The title of the title column, in this example 'Banner column' appearing on top of the image Sub title - The sub title of the title column, not used in this example

Image - Choose the image for the column Title color- choose between 10 different colors Sub title color- choose between 10 different colors Description area dark - Can be checked if the image is very light or has multiple colore

Link - Where a link can be defined, e.g. 'Read more' can be a link leading to the internal page or an external webpage. Not used in this example. Column preferences - Here it is possible to choose between 4 different sizes of the column to define how big the column should be. Also the border thickness can be defined in pixels, if set to 0, there will be no border. Border and background color can be defined, in the above example the border color is red, the border thickness is 4 and the background is dark grey
